

# Exam Prep YouTube Channels: 16-Channel Data Package

This PDF contains the complete CSV dataset as an embedded file attachment. Open the attachment panel in a PDF reader and save **youtube\_exam\_prep\_channels\_2026-10-01.csv**.

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| Snapshot date     | 2026-10-01                                                                                     |
| Included channels | 16                                                                                             |
| Threshold         | 100,000 subscribers or more                                                                    |
| Languages         | 6                                                                                              |
| Scope             | Channels with explicit evidence of exam preparation, coaching, practice, or admissions testing |
| CSV encoding      | UTF-8 with BOM                                                                                 |

**Important:** Subscriber counts are rounded public values and change continuously. This is an auditable sample, not a complete census of YouTube. One primary exam category and one primary language are assigned per channel.
